Subject: FW: Review of SMAQMD Proposed Amended Rule 801 - New Source Performance Standards and Rule 904 - Air Toxics Control Measures
Attachments: Rule801-Board052418.pdf; Rule904-Board052418.pdf; Statement_of_Reasons_Rules 801_and_904-Board052418.pdf

Do we need to do anything with this? It says they will not be submitted for SIP approval?

Subject: Review of SMAQMD Proposed Amended Rule 801 - New Source Performance Standards and Rule 904 - Air Toxics Control Measures

Dear Ms Lo.:

Attached for your review are two proposed amended rules: Rule 801 - New Source Performance Standards and Rule 904 - Air Toxics Control Measures. Also attached is the statement of reasons.

Rule 801 adopts by reference federal regulations contained in Title 40 of the Code of Federal Regulations, Part 60, Standards of Performance for New Stationary Sources. The Board will consider amendments to Rule 801 to incorporate eight new standards and to ensure that the most current version of each standard is adopted by reference.

Rule 904 adopts by reference the provisions of Title 17, Division 3, Chapter 1, Subchapter 7.5 of the California Code of Regulations. These statewide Airborne Toxic Control Measures (ATCMs) limit the emissions of toxic air contaminants from non-vehicular sources. The amendments to Rule 904 will include the most up-to-date versions of the State's ATCMs, including four amended measures.

A public hearing to adopt these rules is scheduled for May 24, 2018. These rules will not be submitted for SIP approval. You can send comments to me via e-mail at the address shown below. Thank you.

Sincerely,

Kevin J. Williams, Ph.D.
